Nurturing Healthy Sexual Development

The Nurturing Healthy Sexual Development training, developed by Prevent Child Abuse Vermont (PCAV), is our introductory workshop on child sexual abuse prevention. This training recognizes that a crucial component of nurturing healthy sexual development is protecting children from sexual abuse. Participants will gain an understanding of the scope of child sexual abuse and the relationship between healthy sexuality and child sexual abuse prevention. Nurturing Healthy Sexual Development provides the foundation and framework for PCAV's other child sexual abuse prevention workshops. Parents as well as child care professionals, and foster parents are encouraged to attend.

Participants will learn to:

- Identify normal sexual behaviors of young children.
- Respond to young children's sexual interactions.
- Respond to young children's questions about sexuality.
- Identify and report suspected child sexual abuse.

Level: Beginner/Intermediate

Completion of this training counts toward advanced protective service or CDA hours in Vermont.

To learn more about Nurturing Healthy Sexual Development and/or to schedule a training, contact:
